## Campaign Against Quebec by J. CARROLL MANSFIELD

IN 1775, WITH THE COMING OF WINTER, GENERAL MONTGOMERY, HAVING LOST MANY MEN IN THE CAMPAIGN, WAS FORCED TO WAIT FOR SUPPLIES AND REINFORCEMENTS BEFORE LAUNCHING HIS ASSAULT ON QUEBEC, THE STRONGEST CITY IN AMERICA.

THE DEEP SNOWS AND THE BITTER COLD HINDERED THE MARCH, IT REQUIRING TWO MONTHS FOR ARMY TO REACH CANADA.

## PAIR IN JAIL DISILLUSION

Youth Who Plotted to Extort Money from  
Not So Enthusiastic About 'Perfect Crime'

(EXCLUSIVE DISPATCH)  
SAN FRANCISCO, June 28.—Collapse of their perfect crime plot directed against Daniel C. Jackson, copper magnate, a few hours after they were in jail, have somewhat disheartened the two youths, Y. Baker, 20 years of age, and Russell Crawford, 21, students of criminology and creators of the "perfect crime."

After eight hours behind the bars Crawford, asserted "brains" of the Jackson plot, still found jail an "extremely interesting place" this afternoon, although many of his psychological theories he already has reformed.

Both of them, and particularly Crawford, are still just a little proud of the "perfect crime" they concocted from their "scientific" minds. Crawford says it was a plot founded upon a good object and that every detail of it was to a good purpose. Asked if he thought it was a greater plot from a standpoint of criminal psychology than that of the Loeb-Leopold case, Crawford asserted that it was "just" even to compare their case with that of Loeb and Leopold.

HAVE NO FUNDS  
Tomorrow morning both will appear for arraignment before Police Judge Jackson, and Deputy Sheriff McDonald, in charge of the case, stated that a continuance would be asked. Both defendants will be represented by Public Defender Frank J. Egan, because neither has sufficient funds to engage private counsel. They are charged under section 213 of the Penal Code, which makes it a felony to attempt to extort money by means of a threatening letter. Lieut. McDonald agreed on the possibility that the case can be laid before the county grand jury, but said it would not be done before next week if at all.

LEGION DRIVE STARTS  
(LOCAL CORRESPONDENCE)  
BURBANK, June 28.—The local post of the American Legion reports that its campaign to raise \$800 as its quota toward the Legion's \$10,000 child welfare fund is progressing well. Many of the two-men teams are already at work and the response assures the local post that its drive will go over the top.

HOPES WASHINGTON WILL CALL CONFERENCE  
(BY CABLE-EXCLUSIVE DISPATCH)  
PARIS, June 28.—It is fervently hoped in Paris that the American government will call an international conference to discuss the Chinese question or take some action to make the situation tranquil.

TO DISCUSS WIDER  
HIGHLAND AVENUE  
(LOCAL CORRESPONDENCE)  
INGLEWOOD, June 28.—Representatives of chambers of commerce and other organizations from towns along the route of the proposed opening and widening of Highland avenue from Hollywood to the city will meet here at the Edison Club on next Tuesday evening, the 30th inst., to discuss tentative plans for the formation of the Greater Highland Avenue Improvement Association. George E. Long, chairman of the Highland avenue committee of the local chamber of commerce, has called the meeting, which will be addressed by Hugh R. Pomeroy, secretary of the County Regional Planning Commission; Roy Bush, secretary of the Hollywood chamber, and others.

## MONTANA AGAIN HIT BY SHOCKS

Populations of Area Spend Night in Terror

Residents Prepare to Flee Before New Tremors

Property Damage in Shaken Districts Soaring

(Continued from First Page)

work of estimating the damage was begun. Damage in Butte was negligible, consisting of bricks being stripped from the facades of buildings and chimneys being toppled over. The quakes left no marks on the more than 1000 miles of underground workings of the Butte copper mines. Thousands of men labored in the stupor and drift while the tremor was most severe.

HUGE FISSIONS APPEAR  
Indications that there had been marked underground disturbances during the earthquakes were evident in the vicinity of Three Forks, where huge fissures, several feet deep, appeared in the earth's surface. The water level of the Jefferson River, a mile above where it joins with the Gallatin and Madison rivers, was reported to have dropped two feet.

Only slight earth shocks occurred in Lewistown, Idaho, last night. No property damage resulted, the tremors only shaking light fixtures and pictures on the walls of buildings.

NEW POLICE AND WIRING FOR THE electrified system of the Chicago, Milwaukee and St. Paul Railroad will have to be installed on the tracks near Lombard, damaged by landslides, officials of that road announced tonight. Until the electrified system has been restored, steam locomotives will be used.

THE NORTHERN PACIFIC RAILROAD will lend its steam engines to the Milwaukee system until the latter railroad sends locomotives from its terminal point.

EARTHQUAKE LAID TO SLIPPING OF LAND  
(BY A. P. MONT WIRE)

MISSOULA (Mont.) June 28.—Some earthquakes are due to large landslides and to violent volcanic eruptions, but most of them are undoubtedly caused by slipping or great faults or fractures in the earth's crust, according to President C. F. Clapp of the University of Montana.

Judging from the reports from various parts of Montana, the earthquake last night was the result of a slip along one of the major faults in the eastern part of the mountain region of Montana.

LANDSLIDE COVERED THE Northern Pacific tracks two miles west of Lombard, Mont., on the Northern Pacific and Chicago, Milwaukee and St. Paul railroads, resulting from blockades by last night's earthquakes, have been relieved and are continuing their journey under a rescuing plan, it was announced last night.

Northern Pacific Train No. 235 tonight was still held up by landslides near Lombard, Mont., its passengers were transferred to another train at Logan and continued their travel by way of Butte.

Chicago, Milwaukee and St. Paul trains Nos. 14 and 15, eastbound, and No. 17, westbound, continued their journey on the Northern Pacific tracks under an arrangement between the two roads, which provides for a connection between Harlowton and Sappington, clearing the Milwaukee tracks two miles west of Lombard.

## BORAH SPEECH SEVERELY HIT

(Continued from First Page)

In reply to the recent address in Boston by your chairman, is worthy of your thoughtful consideration," the letter read.

THE COURT MEMORANDUM  
It recites that the foe (he might have said the few remaining foes) of the World Court are moving heaven and earth to defeat it by the old device of proposing an impossible substitute. It's foe defeated the League by offering a league, the result being no league at all.

You are now trying to defeat the Court by offering a court, the result of which can only be no court at all.

You propose that we join instead the so-called Permanent Court of International Arbitration at The Hague. But there is no such thing as any real Permanent Court of International Arbitration at The Hague. It is a misnomer. In fact, only a list of names on paper, a panel of 156 men, none of them at The Hague but scattered all over the globe, practicing law in their own countries, and in any one place either at The Hague or anywhere else.

They have no court organization, no court statutes, no serious sessions, no anything except a high-sounding name given them by The Hague. The list of names was created by the League of Nations, which created this list of umpires because it could not get a real court. The panel has not been used once in its history. Will the people allow a few irreconcilable opponents to thwart them by the offer of an impossible substitute? What object can there be in the proposal except to block the only way for our country to co-operate in world peace?

From an entirely different angle Dr. Manley O. Hudson of the Harvard Law School, who has been in the city since the earthquake, stated the baselessness of the premises and the fallacy of the conclusions of the Boston address.

OUTLINE ACID TESTS  
"But putting aside further debate there are two acid tests by which we can determine the real value of your proposal, upon the assumption that it offered with sincere desire to associate the United States with other nations in the assurance of international justice and peace," he stated in the following questions:

"Is there the slightest reason to believe that your proposal could receive the two-thirds vote necessary to make it effective? You must know there is not. But if there is, the proposal is a failure."

Another question he asked was: "Is there the slightest reason to believe that the forty-eight or more nations now associated in the League of Nations would forsake the judicial plan in which they are now contentedly sailing the international seas and come into a resurrected and hitherto useless hulk if we should salvage it and put it to use?"

"If we would they would invite them into a new one, but it ever so good?"

Man Hunted as Woman is Found Dead From Gas

(EXCLUSIVE DISPATCH)

SAN DIEGO, June 28.—Investigating the source of escaping gas, neighbors today found the body of Mrs. Grace Zimmerman, 35 years of age, in the kitchen of her home.

The body was seated in a chair, the woman's head lying on an open gas jet of the stove.

While the circumstances indicate suicide, police are searching for a man who was seen to call at the woman's flat last night. Mrs. Zimmerman and her husband, who were married about an hour and upon their return they conversed for a time, after which the man left. Mrs. Zimmerman's husband died in 1920.

WATER FROM KINGS RIVER PLENTIFUL

(EXCLUSIVE DISPATCH)

HANFORD, June 28.—Kings River, supplying Fresno and Kings counties with irrigation water, has furnished four times as much water this year to date as it did last year, states Theodore Miller, superintendent of the People's Ditch System. The water has come down gradually, giving farmers the best opportunity to utilize it. The hot weather of the past week has brought down a large volume of water from the snows of the high Sierra and it is being utilized, increasing the volume of nearly all the agricultural crops of the Middle San Joaquin Valley and increasing prosperity.

BANK BUYS NEW SITE

(BY A. P. MONT WIRE)

SAN FERNANDO, June 28.—The Bank

## A black and white illustration of a town scene. In the foreground, three figures in traditional robes are gathered near a large, ornate building with a domed entrance. A horse-drawn carriage is visible in the middle ground. The background shows a wide river or canal with a bridge and distant hills.

**We Bought a Rug  
in Ispahan---  
for You!**

**WE** SAW A RUG in the markets of Ispahan. Though it lay among others it was not like them. It bore the designs and colors of a famous tribe of weavers. Its soft lustre and precise knotting told its story of quality to the trained eye. A perfect example of its class! We bought it for you.

—and a century from now this same rug should have even a rarer beauty and greater value than it has as it hangs on our walls today.

For fifteen years the California Oriental Rug Company has been selecting just such rugs for you. Perhaps you have yet to buy your first—perhaps you have many—but one thing you know; that every rug in our showrooms has been selected on the basis of "quality always."

*Just now, too, is an especially advantageous time to buy—for we have reduced every rug in our stock 25% or more!*

## WALENS ENJOYS CHILD FESTIVAL

Durban Demonstration Has 15,000 Participants

Indian Population Gives Him Warm Welcome

Prince's Visit Reconciles Two Zulu Factions

BY G. WARD PRICE

(BY CABLE—EXCLUSIVE DISPATCH)

(Copyright, 1925, in United States and Canada by The Associated Press. All Rights Reserved. London Daily Mail; South America, United Press.)

DURBAN (Natal) June 28.—One of the great successes of the Prince of Wales's visit here was a demonstration organized by 15,000 children.

The youthful participants were arranged in groups around the broad field of the Kings Mead football ground. Their program included drills and various other exercises.

Once the program the Prince was charged by several hundred hobby-horse riders, dressed in imitation plate armor. Later a huge dragon, at least 100 feet long, with revolving eyes, crossed the field toward the Prince, until the small boys who were furnishing the propelling power proved unable to get it over a rut, where it stuck with its canvas back broken.

SCATTER ROSE PETALS

A thousand pretty bare-legged brunettes and elves scattered rose petals wherever the Prince walked.

Others made archways of flower-laden boughs for the Prince to pass under. To close the program, there were daylit fireworks, with exploding bombs which launched strange inflated figures of men and animals to float off on the brisk breeze.

During his visit to Durban, the Prince opened the city's new dry dock, one of the largest in the world, capable of accommodating the largest merchant ship afloat.

On the same afternoon, he reviewed a British squadron assembled in the harbor.

DRIVE TO PARK

The Prince drove to the park, along the water front, through a great crescent of Indians, some in European dress, others in native attire.

The women were especially striking in becoming saris, with gold ornaments set in their noses, their eyes darkened with kohl.

Festive Mohammedans and turbaned Hindus cheered the Prince in vigorous rivalry.

The president of the reception committee closed the proceedings by reciting the prayer for the Prince's visit, and the Prince, who are more numerous here than in any other South African community.

DRIVE TO PARK

The Prince drove to the park, along the water front, through a great crescent of Indians, some in European dress, others in native attire.

The women were especially striking in becoming saris, with gold ornaments set in their noses, their eyes darkened with kohl.

RECRUITING DISTRICT OF CITY IS OUTLINED

WASHINGTON, June 28.—One of the most difficult aerial mapping projects yet undertaken by naval airplanes will be started about July 1 when planes from the naval air station at San Diego start on an aerial photographic map of the naval oil shale reserves in Western Colorado.

The area to be mapped is in a rugged mountainous region, lying from 8,000 to more than 9,000 feet above sea level. Located on top of a plateau, and approachable only by faint trails winding its almost sheer sides, naval oil shale reserve No. 1 will present the hardest prospecting conditions to the naval flyers. This reserve consists of 26,550 acres and is adjoined by reserve No. 3, on the adjacent lower, but by means of unbroken, country which comprises 22,580 acres.

The total territory to be covered from the air in one map will consist of nearly 60,000 acres, or more than ninety-two square miles.

The work is in charge of Lieutenant-Commander Osgood. Under him there will operate three planes in charge of Lieut. Wyatt.

INDIAN GIRLS LEARN ARTS OF PALE SISTERS

GLACIER PARK (Mont.) June 28.—Indian girls on the Glacier National Park Reservation bob their hair just like the pale-face city misses. They use rouge, too, of a hue that blends with their copper-colored complexion. And

the wrinkled old squaws make it for them from herbs which they gather on the wooded slopes of the Rocky Mountains. Out in the West these Indians take it for granted that the pale-face girls got the idea of cheek painting from the American Indian custom, just as the Indian girls took the hair-bobbing habit from their "white sisters."

APPEAL IS FILED BY GILA WATER CONCERN

PHOENIX, June 28.—In the Supreme Court has been submitted the appeal of the Gila Water Company against a judgment in favor

of the Gila Land and Water Company for \$18,000, on the asserted damage to the Gila River, fifty miles from Phoenix. It was asserted that the dam kept water from the land and the Gila Water Company's fifteen miles of the Gila River.

Quickly the Gila Water Company's fifteen miles of the Gila River.

## CRIM'S VISITOR IS BLINDFOLDED

Envoy Mistakes Guard for Firing Squad

Death Thrill as Rifle Load Their Guns

Reached by Colonel When He Reaches Outpost

Following is a continuation of the story of Larry Ruffin, the Tribune correspondent, who was taken to Tientsin, the capital of the Republic of China, by the Japanese, and who was then taken to the Japanese prison at Tientsin, where he was held for several months.

As if on a signal, the Japanese guards, who were standing before the prison, suddenly turned and ran toward the prison.

The next morning at 8 o'clock, the Japanese guards, who were standing before the prison, suddenly turned and ran toward the prison.

were once considered virtues of infidels and unbelievers. As they have been brought under approbation by the Bible in the trial, divorce, moderate drinking, gambling, Sunday amusements, snubbing now upheld by scoffers as infidels are receiving their chance of conversion. To that one cannot believe in evolution and believe the Bible is to not the fact that untold thousands of devoted consecrated men believe in evolution and the Bible."

Fire in Pomeroy Coal Fields Damages Shaft and Causes Suspension  
BY A. P. NIGHT NEWS  
POMEROY (O.) June 27.—The mine in the Pomeroy coal field, where union miners have been on strike more than a year, recently has resumed operations. The nonunion miners, took on a serious aspect last night with the wrecking of the outer workings of a river ferry and the dynamiting of the mines, an automobile and laundry lesser disturbances. Fifty deputies were sworn in to guard at the mine properties and in the city. James F. Miller has threatened against picketing of the mines workers.  
The burning of the outer workings of Mine No. 17 of the Pittsburg Coal Company near Racine, Wis., known as the Thomas mine, took place in the early hours of morning. The destruction was forcing indefinite suspension of work and causing damage estimated at \$50,000. About 150 men were employed at the shaft, which had been closed since it was blown up at most of the miners who crossed the Ohio River from Kentucky and West Virginia was mounted and sunk.

**TEMPERATURE CHART ENDOWED**  
BIRMINGHAM (Cl.) June 28.—Margaret H. Spencer of Birmingham has donated to the Red Cross Society \$20,000 for the erection of the Albert Spencer monument in English literature. Mrs. Spencer gave the money to the Red Cross for the purpose.

## CAMERA STUDIES BY MODE WINEMAN Copyright 1925

A STRIKING illustration of the manner in which nature has been changing the topography of the globe for millions of years was provided last week in the Gros Ventre Valley of the Jackson Hole country in Wyoming. The north end of Sheep Mountain crashed into the valley in a huge landslide, brought about, it is believed, by water seepage and seismic disturbances. The slide formed a natural dam across the valley, effectually imprisoning the waters of the Gros Ventre River and causing the inundation of the valley for miles. A lake which it is estimated will be a mile wide, six to seven miles long and 200 feet deep, will ultimately result, according to United States forestry officials. The above photographs of the Jackson Hole country were obtained several years ago by Mode Wineman of Pasadena, whose camera has recorded most of the beauty spots of the West. They provide an excellent idea of the natural grandeur of the country in which the phenomenon of nature occurred.

## Mascart Says He Won't Take on Babe Herman

[BY A. P. NIGHT WIRE]

OAKLAND, June 23.—After losing six straight games to Seattle, the Oaks broke the winning streak Seattle has been enjoying and won the afternoon game today 3 to 4.

The Oaks got five hits off Plummer in the first inning for four runs and the same again in the sixth for four more runs. Boehrer held the Indians scoreless until the seventh, when a single and a double by the Indians' outfielders bunched hits in the eighth, accounted for three more tallies.

## LOCAL LAUGHS

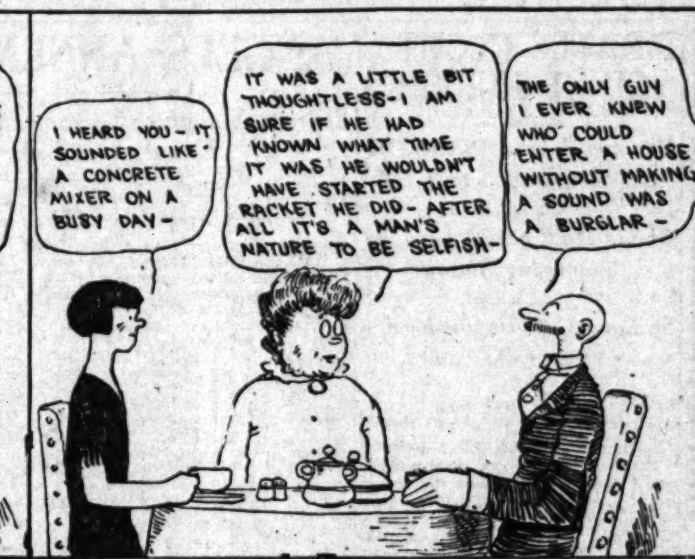

Each week The Times produces a film entitled "Local Laughs," consisting of the fifteen best jokes submitted by local people. Weekly prizes are paid of \$5, \$2, and twelve of \$1 each. A list of libraries showing the film, together with rules for submitting jokes, are given daily in a coupon in The Times. Prize-winning jokes, and names and addresses of winners, appear only on the screen. Jokes involving libelous matter will be given a place of honor on The Times comic page each week-day, and each of these contributors will receive a souvenir of appreciation.

**Hostess:** Good evening, Mr. Casey, where is Mr. Clancy tonight?  
**Casey:** Well, both of us couldn't come, so we flipped for it.  
**Hostess:** Thrilling, and you won?  
**Casey:** No—I lost.  
N. E. Barrie, 1538 Cambria street, City.  
**Rasmus:** Heard you all was in de chicken business.  
**Sambo:** Was—not is.  
**Rasmus:** How come?  
**Sambo:** Dis mornin', when ah went out to de roost ah found dey had all gone home.  
D. F. Gordon, R.F.D. No. 2, Box 799, San Gabriel.  
**Mistress:** Miss Elsie is coming out next week, cook.  
**Cook** (whose husband is in jail): So is my old man.  
**Mrs. W. F. Hoover,** 342 Summit avenue, Pasadena.  
**"I think I'll take my beauty nap now."**  
**"Take a good long sleep, dear."**  
F. Wasserman, Oxnard.  
**Man** going to see parades carrying children, followed by eight more and three women, meets friend who asks: Getting a little practice, Bill?

## Late Reports From California's Great Petroleum Pools; Financial World News

## OUTPUT GROWS AT INGLEWOOD

Prognosticators Misjudge Production by Half

Yield of 100,000 Barrels Per Day Predicted

Dominguez Number 2 Now Down 3450 Feet

Oil men have just about been broken of the practice of trying to forecast developments in the Inglewood field. A month ago the production of a 50,000-barrel per day production peak was regarded as rather optimistic.

Since that time the prophets have shown their prognostications up at the rate of 5000 or 10,000 barrels per week until now with the field record stands at about 33,000 barrels in a single day, the possible figure of 100,000 barrels a day is mentioned, without a quiver.

Half a dozen completions by the Standard Oil Company and Shell Company during the early part of the week were responsible for pushing the field up to its new record. None of these wells were reworked-breakers in total output, although the Standard gave the reloggers something to think about by getting 25-degrees gravity oil, which is considerably higher in quality than any previous well at Inglewood has produced.

A development which may have considerable significance was the completion of the Associated Oil Company's Vickers No. 14 on the north side of the field. This well ran into bottom water, and on being plugged back at about 2300 feet went on the pump at about 350 barrels per day.

This well rather upsets the previously conceived opinions regarding that part of the field, as the indications are said to closely resemble the conditions, although the field had been expected to extend considerably to the north of the Vickers lease.

Oscar Howard had the deepest stratigraphic well in the field in his Dominguez No. 1. He resumed work on this well early in the week, and has made about 100 feet, making its total depth somewhere near 3450 feet.

The viaduct which is to carry overhead through the center of the tracks of Canadian National and Canadian Pacific railways will cost \$25,000,000.

## ASSOCIATED TO INCREASE GAS OUTPUT

New Casing-Head Put in Operation at Absorption Plant at Ventura Avenue

During the past few days the Associated Oil Company has placed in commission in the Ventura-avenue field at Ventura its new casing-head gas absorption plant, which has been hurriedly erected to take care of gas production.

The plant is only partially completed. Its ultimate capacity will be 30,000,000 cubic feet of gas a day, but during the last few days it has been able to take care of only 13,000,000 cubic feet a day. It will be completed as quickly as the various units can be assembled.

The Associated has for some time been operating an enlarged old absorption plant in this field, at a capacity of 10,000,000 cubic feet a day. When both plants are fully equipped it is expected that it will be able to absorb from 20,000,000 to 30,000,000 cubic feet of wet gas daily.

The dry gas from these plants is being turned into the supply line and delivered to the Southern Counties Gas Company which recently completed a pipe line which is now conveying gas for domestic and industrial consumption to Glendale and other points for distribution to various cities in Southern California.

## MARINE TO OPERATE AT NEW POINT

Company Buys Montebello Land and Has Started Drilling Activities

The Marine Corporation, which in recent months has become one of the most active of the independent oil operators in the Los Angeles Basin, has extended its operations to the Montebello field, where it has already begun drilling operations, according to an announcement by officials of the company.

Marine has purchased ten acres in the area recently proved up by the Standard Oil Company, northwest of the old producing area. The Standard and the St. Helens Petroleum Company both are operating rather extensive drilling operations in that vicinity.

Officials of the Marine report the purchase of an interest in a 1200-acre tract near Pueblo, Colorado. The land is said to be strictly wildcat territory, but, according to geological opinion, shows indications of a structure, and will be drilled immediately by the Continental Oil Company, which is associated with the Marine in the enterprise.

## Copper Deposit Found by Pinto Valley Company

(EXCLUSIVE DISPATCH) MIAMI (Ariz.) June 28.—In addition to deposits of material size carrying good commercial value, the property of the Pinto Valley Company is said to carry not less than 250,000,000 tons of material containing approximately ten pounds of copper to the ton.

This is detailed in a report by President Garret Mott, following extensive drilling operations. Whether such ores are subject to treatment such as that soon to be started in the leaching vats of the Inspiration Consolidated in Miami is not stated.

The Rio Grande Mining and Metals Company, an El Paso organization, is purchasing machinery for development of silver-copper mines in the Sierra Ancha Mountains, fifty miles north of Miami. The company also owns a large property in the same district. S. C. Bettes is president and T. F. Russell is local manager.

## NEAR COMPLETION

Big Jim Plant in Arizona Area to Operate Soon

It is expected that the milling plant of the Big Jim Mines, Inc., now in course of construction in Harshaw district, Santa Cruz county, Ariz., will be ready to go into commission within thirty days, by which time the main working shaft should be deepened to the 260-foot level, and ore blocked out for stopping.

Loring, a mining engineer of high standing, internationally, is reported to have become heavily interested in the company and now one of its directors.

**PENDENCE, June 13.—Q:**  
Sending you one sample,  
which is in the usual column  
of Comes from Inyo  
material represented by the  
is probably of commercial  
On specimens there is a variety  
of colors.

**Los Angeles Touchstone**

**ANGELES, June 16.—Q:**  
Your sample gives a qualitative  
of the material heretofore  
and if there is any zinc, tin,  
or silver present. This  
from near Denby in San  
county and is a recent  
S.

**Touchstone (tyden stone)**  
most variety of flinty, slate  
black color and there is  
one-fourth of the rock,

traces of microscopic pyrite, arsenopyrite, and blende appear, and  
silver was not found under the  
microscope.

**Touchstone**, when pure (the  
sample is impure) is used as a  
cheap imitation of jet in low-grade  
jewelry manufacture. When free  
from impurities, it makes a good  
testing medium for gold and silver  
streaks, which is effected by rubbing  
the named metals upon the  
surface of the stone, the  
color of the streak of metal being  
sufficient to those experienced in  
it to judge of the amount of  
alloy mixed with the gold or silver.

**Free Gold Assent**

**EAGLEVIEW, June 14.—Q:**  
Please find herewith three samples  
of rock from Washoe county, Nevada.  
Will you please tell me  
what is in them—if anything of  
value.

The samples represent offers  
of very doubtful commercial value.  
Nos. 1 and 2 carry a little zinc and

each specimen. Mrs. L. M. J.

A.: All of the samples are in  
boulder forms except one. The  
boulders contain yellow mica  
ironstone and the other two  
remaining specimen carries siliceous  
lustered mica known as "Cat Sil-  
ice" there is no free gold in any  
sample.

**Of Doubtful Value**

**SAN ANGELES, June 16.—Q:**  
Samples from South America.  
Please give values of mineral.

A.: One of the three mica  
schist samples is blottie (black  
rock of the mine of the hills)  
with "Cat Gold" yellow mica.  
The reddish specimen is altered  
ironstone and hematite. No  
side and hematite (iron peroxide)  
present. Free gold absent.

In Hamburg, home of hardware,  
American saws, locks and drills  
now are being used.

Los Angeles

**BEGIN WORK ON  
CITY FIREBOAT**

[illegible]

With the keel laid Saturday, work will begin today on construction of the city's new fireboat at the Los Angeles Shipbuilding & Drydock Corporation Plant. It will be ready for service October 1, according to L. E. Cverly, general manager of the yards.

According to Fire Chief Scott, the new fireboat, "City of Los Angeles," will be among the fastest of its kind afloat, with a speed of seventeen knots, and with its seven engines will pump 9,000 gallons of water a minute under 200 pounds pressure. In addition, it will be equipped with large foam tanks to fight oil fires.

The vessel will be of steel construction, 160 feet overall, and will cost \$214,000. Most of the machinery will be erected in the

## WEEK IN FINANCE

**BY PAUL WILLARD GARRETT**

**[EXCLUSIVE DISPATCH]**

[Copyright, 1929, New York Evening Post, Inc., NEW YORK, June 28.—Easily the most important feature of the week has been the tightening of the rate for call money to the highest level recorded in three months. All year cheap money has been a primary feature of the week and confidence that it would remain plentiful is one thing that has led so many people of late into the belief that the worst of the strike was behind them.

At the first sign of an advance in money this week stocks were unhesitatingly sold off, but the recession did not extend far. For a

around. Accordingly, national banks are calling in their loans and selling securities to get ready for the vaults, operations which of course tend to lessen temporarily the supply of funds available for the market. The Treasury funds to the interior at the end of the month and the cleaning up of Treasury operations in connection with the strike have also helped to make money dearer. The seasonal demand for currency next week in anticipation of the Fourth of July holiday has a tightening influence also, of course, until after the Fourth of July.

ations fell to about 40 cents. Steel continues good, and the demand prices which usually follow the automobile season are not yet in. The automobile companies active, although the annual peak of the year has passed. A short crop of wheat seem's probable, and conditions of the crop are not so good as last year. The early in the season. The prices generally have reason for stabilization this year. The market is better than had been Hand-to-mouth buying

day it seemed that seag on a fair scale might develop. Disappearances of money mysteriously in the next season, however, when they awoke to the fact that securities were being sold at a price of 100 or less value. The rate for call money held to its former levels, but the more cheerful attitude toward the market was evident last in the week than had been seen in some time.

That money will become somewhat dearer as the autumn approaches, even if it does not actually reach a high level, is the general expectation. On the appearance of a 5 per cent rate for call money at this particular season, it is not surprising that some think that a permanently higher basis has been reached. Several reasons are given for this. The rate might tighten now but which will not apply to the situation in another ten days. Belief that the rate will rise is based on the appearance of a statement of conditions from national banks makes the possibility of a rise in the rate of appearance possible. They want to have on their best dress when the Comptroller comes.

Stock market prices have risen slightly since the middle of the month. Call funds in anticipation of the heavy July reinvestment demand that is certain to develop is the chief factor in the moderate improvement at least in business after the summer slump. The country has been able to get the funds from dividends, interest and semiannual commercial payments at midyear. The rate for call money is expected to be next month. A part of the present increased activity in the securities market is due to the seasonal factor. That prices do not move forward faster in the circumstances must be clear to anyone who has been watching the market already has had. The public is in the market. Brokers are not so sure of the market with prices high, they do not indicate that the margins are as slim as they were early in March. The market is not so strong as at about 70 per cent of capacity, a level to which it has held for something like a month. The likelihood of a rise in the rate of 10 per cent this summer becomes more and more remote. Last year operation of the market was not so good. Conditions overseas led to this. The rate for call money on this side of the water was proposed to take a rather high level. The rate for call money upon since our own paper is strong. European crops are only, like to be good. Conditions in the United States, however, that cannot be by reference simply to the situation in the United States. The gold standard influences have gained. Demoralization of the market has quotation having fallen to a low at 450 cents, has forced the rate for call money to rise for a 6,000,000,000 issue in France. Uncertainty over the final solution has forced the rate for call money to rise. It is the policy for the formal negotiations between Premier Mussolini and the French government. The commission has weakened the position of the lira.

**SAN FRANCISCO, June 28.—**The Panama Pa-  
cific Line's ship "The Panama" left San Fran-  
cisco for Honolulu at 10:30 a. m. today. The  
Panama Canal and Los Angeles. She is carrying a  
large list of cargo.  
The second largest liner to come from New York  
during the week will be the Dollar Line "Toucan"  
due here tomorrow. Previous to the Dollar Line  
arrive Wednesday.  
The Matson Line Maimala will arrive at the port  
Tuesday from the Hawaiian Islands bearing  
passengers, the largest list of cargo on the  
Panama Line.  
Honolulu (Cr.) June 28.—Lumber was loaded  
today aboard the steamer "The Alaska" and  
started for one night bound for San Francisco  
and Los Angeles.  
Two of the tanker fleet, the Warwick and the  
Harper left today after discharging their  
cargoes. Capt. Sullivan of the Harper, before de-  
parting, said that the vessel would be in the  
ports of arrival in November and with her arrival  
at Portland this trip she had loaded about 250,  
000 miles.  
To land some of the season's newly-arrived cargo  
for European ports, the Pacific Mail steamer  
the Furusue Line is due Wednesday. The Manchester  
due here today. The Furusue Line is expected to  
use the same time to land lumber and ties for the  
United Kingdom.  
Carrier about 1860 tons of freight, the Kinder-  
go of the West-American Line departed today.  
Brought 275 tons of box shooks she has aboard  
of pine, coned goods, flour and miscellaneous  
merchandise.  
TACOMA, June 28.—The Swedish steamer Tal-  
linn due at midnight from Seattle. She will  
load a large lumber cargo for Australia.  
The ship will load 100,000 feet of the Lillian  
Lumberback mill late this afternoon. This vessel  
carries a large cargo in British, Netherlands  
and New York.  
The Taconian City, which arrived yesterday,  
is scheduled to sail tomorrow evening. Carrying  
lumber, doors and wood handles for the United  
Kingdom.  
Dow Monday is the W. H. Chamberlain, Jr.,  
of the United States Pacific Mail Line, is  
shifting to local mills where a shipment of lumber  
will be made for the steamer.  
After loading lumber at down-bound port, the  
Alabama Maru is expected to return Thursday to  
complete her cargo for the United Kingdom.  
SEATTLE, June 28.—The Lumberback Steam-  
ship Company announced here today that the  
company's steamer "The Alaska" will leave  
Seattle tomorrow. It would receive freight rates 5  
cents a hundred pounds on cargo loaded at  
Tacoma. Freight rates will be 10 cents a  
hundred pounds, the company reported, which  
will be paid for the cargo loaded at  
Seattle, San Francisco and other California ports.

NEW ARREST IN  
MARTIN DEATHSYouth Held for Questioning  
in Slaying CaseFaces Glen Airy Watchman  
in Jail QuizSheriff's Aides in Effort to  
Clear Mystery

With the arrest of a 21-year-old youth, giving the name of Paul Grader, deputy sheriffs believed late yesterday that they had in their possession the key to the mysterious disappearance and death of the Martin girls, whose case attracted nationwide attention several months ago.

The girl, Nina, 8 years of age, and May, 13, disappeared from their Glen Airy district home on August 13, 1924. Their decomposed bodies were found in a deserted section near Angeles Mesa Drive on February 4, last. They are believed by investigators to have been slain after being subjected to indignities by a moron.

Through Grader, deputy sheriffs hope to break another man upon whom suspicion has rested for months, they announced. Late yesterday, Grader, accompanied by Undersheriff Eugene Biscailus, Chief Deputy Sheriff Harry Wright, Deputies Hackett and Weir and J. Clark Sellers, handwriting expert, was taken to the County Jail to face S. C. Stone, former Glen Airy district night watchman, who is serving a term for an offense upon a young girl.

Stone was arrested many weeks ago as a suspect in the Martin case, but at that time insufficient evidence was gathered against him to warrant a prosecution. About the same time, he pleaded guilty to another offense and was sent to the County Jail.

Throughout the weeks that have followed, Deputy Sheriffs Weir and Hackett have worked almost unceasingly on the Martin disappearance and death, culminating their labors with the arrest of Grader. The latter was placed in custody Saturday, being found where he was employed as a carpenter on a building under construction at Washington and Hausen boulevards.

Grader's arrest was the outgrowth of a clue provided by Ralph E. McIntosh, 18 years of age, living at 2918 Rimpau Boulevard. The youth told Deputies Hackett and Weir, they said, that he had often seen Stone, the watchman, talking to the Martin girls in the vicinity of their home at 2934 Mansfield avenue. He declared also that he had seen the two girls alongside a roadster just about the day they disappeared. Stone at that time had a Dodge roadster, according to the deputies.

Mrs. Winifred McIntosh, the boy's mother, gave more tangible evidence, the deputies said, to the effect that she had actually seen the two Martin girls in Stone's auto about sundown on August 23. She identified a roadster seen on the date by means of a dairy she keeps. With Mrs. McIntosh at the time, according to her story to investigators, was her mother, Mrs. Sadie Pryor, of 750 Douglas street, Belvedere Gardens. Mrs. Pryor corroborated her daughter's story, the officers asserted.

A day later, they said, Mrs. Pryor saw an automobile standing only a short distance from the place where the little girls' bodies later were discovered. An elderly man and a youth were in the auto, she said. She described both of them, and it was upon her description of Grader as the younger of the two that the latter was found and placed in custody. He has been held incommunicado in an outlying jail since Saturday.

Mrs. Pryor declared that while she watched the automobile, the elderly man got out of it, bearing a bundle wrapped up in newspapers and walked off into the "swamps," which characterize the vicinity where the bodies were discovered. Grader denies all connection with the case.

**STONE UNDER QUIZ**  
Stone, who limps upon crutches as the result of an injury to his hip, was subjected to a rigorous cross-examination by Weir and Hackett during yesterday afternoon and evening. He continued to deny any implication in the Martin case, however.

Mrs. Pryor declared that while she watched the automobile, the elderly man got out of it, bearing a bundle wrapped up in newspapers and walked off into the "swamps," which characterize the vicinity where the bodies were discovered. Grader denies all connection with the case.

PREPAREDNESS  
WAR'S LESSONAmerica Found Unready All  
Through HistoryFourth of July Set Aside for  
Defense TestDay Will be Given Over to  
Community Musters

BY LIEUT.-COL. JOHN R. KELLY  
(New Nation Office, Based in Los Angeles)

We talked to learn the lesson of preparedness in 1912, in 1916, in 1917 and in 1918, and our last example of unpreparedness in 1917, when our deficiencies in preparedness were so mercilessly exposed, is still fresh in our minds. The year of 1917 showed us to be not only unprepared to fight, but even unprepared to begin preparation.

The 1,000,000 men assumed to be ready to spring to arms overnight were confronted with the difficulty of not knowing where to leap and having no arms to which to spring. With the lessons of the World War still fresh in mind, Congress, on June 4, 1920, placed on our statute books, as a part of the law of the land, the National Defense Act, and created the Army of the United States, which consists of the Regular Army, the National Guard and Organized Reserves.

Under this provision the War Department has prepared plans and with the approval of the President has designated July Fourth as National Defense Test Day, the primary purpose of which is to enable our people to visualize the initial processes necessary to muster our forces for national defense. It is to be a day given to patriotic gatherings by citizens in which community defense is everyone will learn his place and his task in the defense of the country should our security be threatened.

It will be a demonstration of our military organization and plans and of our confidence upon the great body of citizen soldiers, supported by the patriotism of every community throughout the land.

Behind the first line of the Regular Army and National Guard we have the great body of reserves which constitute the bulk of our armies. The units of this force have been allocated to sections of the country, according to population. Officers have been assigned to local units and the defense test will be a trial of knowledge of the duties which will automatically devolve upon them to recruit, shelter, supply, equip, train and otherwise care for their respective organizations.

It is hoped that the whole question of national defense will be brought to the attention of the American people and that all will come to realize the truth of Washington's century-old message: "To be prepared for war is one of the most effectual means of preserving peace."

**SALUTE TO BE RENDERED NATION ON SATURDAY**  
Throughout the city, citizens of Los Angeles at noon next Saturday, July 4, will stand at attention in a salute to the Union in observance of Defense Test Day under plans made public by Col. F. E. Fowler, commander of the citizens' committee appointed by Mayor Croyer.

Street-car traffic will come to a standstill, all yellow cars at the noon-hour stopping for one minute, according to orders issued by J. K. Kuhn, general manager of the Los Angeles Railway Company, as a symbol of the patriotism of his organization.

**JOIN IN SALUTE**  
At every gathering Los Angeles patriotic citizens will join in this salute. Many organizations holding gatherings on this day, according to the Defense Test Committee, will precede the salute by rendition of the "Stars and Stripes."

**PLANES TAKE PART**  
Pursuant to instructions from President Coolidge, all planes from Clover Field, near Santa Monica, will co-operate with the National Guard aviation unit stationed at Griffith Park. Flying all planes in formation over the University of California, Southern Branch, where the National Defense Test muster will be held, will be a joint military and civilian patriotic parade on the athletic field and appropriate exercises.

Mrs. Anthony Wayne Cook, President-General of the Daughters of the Revolution of America has communicated with all chapters of that organization, saying: "Let us again pledge our support to ideals and principles so nobly given to us by our forefathers."

"The Defense Day Test is a splendid aid toward providing for national defense and the preservation of the liberties and privileges that we today enjoy through the sacrifices of those patriots who founded this country."

Hollywood Chapter, D.A.R., has also written to Col. George H. Hamilton, U.S. Army, who represents the Ninth Corps Area commander in Los Angeles, pledging to support the Defense Day plans.

**STREET NAMES CHANGED**  
The City Council has changed the name of Tenth avenue, from Florence avenue to Seventy-fourth street, to Ninth avenue and has changed the name of Eleventh avenue, from Florence avenue to Seventy-fourth street, to Tenth avenue.

Boulevard just outside of Long Beach at an early hour yesterday. David B. Quinn, the injured man, was taken to the Long Beach Community Hospital, where it was reported that he had received a skull fracture which may result in his death.

J. C. Boss of 392 Freeman avenue, Long Beach, reported to officers that his machine traveling at an estimated speed of sixty miles an hour, containing Quinn and the injured man, overtook him on the deserted boulevard and in passing sidwiped his machine and knocked it off the road. The driver then lost control of the speeding machine and it crashed into a large tree on the opposite side of the boulevard. The driver, who was not injured, was taken to the hospital.

Deputy Sheriffs Monteleone, Ling and Merrill, who are conducting a search for the missing man, reported that liquor was found in the machine. All places where surgical aid might be had are being watched, as it is thought from traces of blood found on the machine that he may be seriously injured.

The machine carried an Arkansas license plate and was registered to H. C. Couch of Pine Bluff, Ark.

BY CLAIRE MELLONINO  
Walker's Fifth Street Store celebrated Founders' Day at KHJ last night. Celebrated it happily, melodiously, beautifully and carried memory back to that first June 29 so many years ago when the proprietors with courageous vision announced the ideal of service upon which the new institution was founded; an ideal from which there has been no deviation with the passing years, only growth and development in every department, often in advance of actual requirements. So it was peculiarly gratifying to us at KHJ that last night should find this splendid organization host to Radioland in honor of Founders' Day.

The evening was arranged by J. Howard Johnson, and presented the Zoellner String Quartet, composed of Antoinette, violin; Amanda, violin; Joseph, Sr., viola; and Joseph, Jr., cello. The Orpheus Four Male Quartet, consisting of Sam Blasse, first tenor; Paul M. Adams, second tenor; Verner E. Campbell, baritone; and Houston Dudley, bass. George Shkultsky, Russian basso, and Vera Barstow, violinist.

**FAMOUS FAMILY**  
Radio is forever providing a fertile field for the mind which indulges in physiological browsing. The history of the famous Zoellner family is known to almost every music-loving citizen of Southern California. It was my pleasure the other day to rehearse with the quartet at the Zoellner Conservatory of Music, Inc. As they played last evening my thoughts returned to the scene of that visit.

The great music-room with its glimpses of green lawns and California mountains in the distance; the sounds of busy young students inspired to work even in the summer heat, seemed such a beautiful climax to the career of this splendid father, who plays with his gifted daughter and two sons.

Georgi Shkultsky is one of our prize examples of the high standard of music which goes forth from KHJ. Aside from his beautiful

"One o'Clock  
Saturdays"

## The Boys' and Girls' Store

BULLOCK'S ENTIRE FIFTH FLOOR

## Prepares for the Fourth

Every boy and girl looks forward to celebrating the Fourth of July—the first big holiday after school closing. Such swims and splashings at the beach! Such breezy rides over smooth, winding roads as houses, fields and hills whisk by! Such tramps and romps in spicy mountains!

And while the young folks have been planning all these outings, the Boys' and Girls' Store at Bullock's has been planning just what clothes they'll need—bathing suits, khaki togs—summery clothes for every one from the tot to the collegienne.

This store, which specializes in the complete outfitting of all the junior members of the family, covers the entire Fifth Floor at Bullock's. One just takes an elevator to the fifth floor and all holiday purchasing is accomplished by taking but a few steps from one section to the other.

Tuesday—Not Today

### Tots' Bathing Suits With Blazer Top, \$1.95

Just like mother's or father's smart bathing suit with its wide striped top.

A suit to brave the waves when the two-to-six-year-old is carried into the surf by some grown-up. A suit that's jolly for paddling around in a puddle or rolling in the sand. Such a good little wool suit in bright color combinations at \$1.95, at the Girls' Bathing Suit Section, Bullock's Fifth Floor, Tuesday (not today.)

### Doll Bags for Bathing Suits, \$2.95

A saucy French Doll with quaint full skirts forms rubber bag for bathing suits. One of the clever beach accessories featured at the Girls' Bathing Suit section on Bullock's Fifth Floor.

Here Girls 2 to 16 years Should Find Just the Bathing Suits They Want at Prices from \$1.95 to \$5.50.

—Girls' Bathing Suit Section, Bullock's Fifth Floor.

### For the Boy Who Swims New Bathing Suits, \$3.00

And is there a boy who doesn't swim? All the chaps from 7 to 17 years are asking for man-type suits like these which Bullock's Store for Boys features at \$3. Plain or with chest and border stripes. In all the popular colors.

—Store for Boys, Bullock's Fifth Floor.

Tuesday—Not Today

### Collegienne Coats of White Flannel, \$24.75

A Special "Before-the-Fourth" Selling

What could be smarter for beach wear on the "Fourth" than one of these White Flannel Collegienne Coats?

In a military model with brass buttons and buckles (sketched below). Or in a flare style with clever little bow at the back of the collar. 75 of these coats in white or tan in that fifth floor section where the high school and college girl selects her Fourth of July outfit. Sizes 14 and 16 years at \$24.75; Tuesday (not today.)

—Collegienne Shops, Bullock's Fifth Floor.

### Big-Bang Cannon for a Safe 4th

What a wonderful loud noise it makes. Of course grown-ups won't like it, but since the Fourth of July is really the children's day, they will smile and say "Let them enjoy themselves."

One thing about this Big-Bang cannon that grown-ups will like is its safety. No powder or matches are required.

8-inch Cannons, \$2.25; 12-inch, \$3.75; 16-inch, \$5.50; 8-inch Cannons without wheels at \$1.50.  
Big-Bang Pistols (in holsters), \$2.00.

### Fireworks—2 for 15c

Lawn Lights  
Vesuvius Fountains (small)  
Chin Chin (small)  
Ruby Dou

### Fireworks, 10c

House on Fire  
Sidewalk Wheel  
Handed Flower Pots

Willow Plumes  
Birch Tree  
Mount Lassen

### Fireworks, 2 for 25c

Pyroscope Wheel  
Radium Wheel  
Vesuvius Fountain (large)  
Pyramid Colored Lights  
Chin Chin (large)

### Fireworks, 15c

Tower of Jewels  
Silver Fountain  
Gold Fountain

### And the Popular Sparklers 10c and 60c a box

All these at Bullock's Fine, New Toy Store in the Boys' and Girls' Store, Fifth Floor.

### For Girls, Outing Suits in Three Fabrics, \$5.95

Linen color cotton crash, blue denim and mixed tweed. Suits for hiking or general outing wear in Bullock's Junior Girls' Section where outing togs are a specialty. These particular suits consist of knickers and sleeveless coat in sizes 8 to 16 years—ready for the Fourth of July, at \$5.95.

Pongette Blouses to go with them, \$1.95.

Separate Khaki Knickers at \$2.95.

Sleeveless Khaki Coats are \$1.95.

—Junior Girls' Section, Bullock's Fifth Floor.

Small Boys Delight In

### Those Long Trousers of Biscuit Khaki, \$1.95

Lighter than the regular khaki shade, these are the newer long khaki trousers for small boys of 2 to 10 years. Every little fellow should have a pair for the "Fourth" from Bullock's Store for Boys.

Cool Sports Blouses to go with them are 95c.

And Wide Leather Sports Belts are here at \$1.00.

This will form the new costermonger outfit for boys.

Also Khaki Blouses, Knickers, Shirts, etc., at Bullock's Store for Boys.

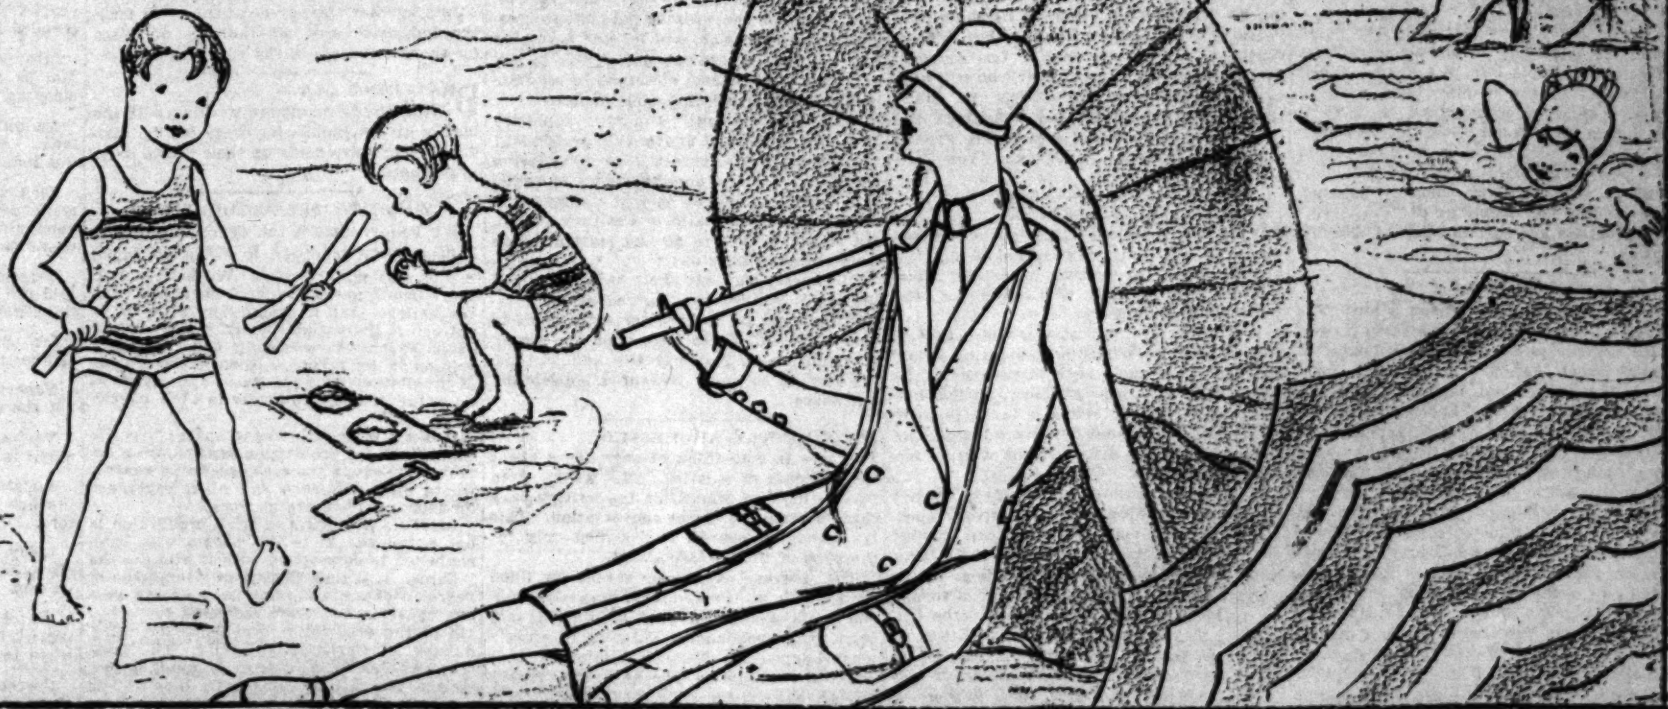

—Bullock's Fifth Floor.

### Keds, the Lace-to-toe Style, \$2.50 to \$3.50

These popular outing shoes in a style that's a favorite with boys. The high-cut, lace-to-toe Keds with ankle patch and crepe rubber or plain rubber soles. Sizes 11 to 2 at \$2.50. 2 1/2 to 6 at \$3.00. 6 to 9 at \$3.50.

This is just one of the many types of Keds, the canvas outing shoes that boys and girls want for the Fourth. At the Boys' and Girls' Shoe Store, Bullock's Fifth Floor priced from \$1.35 to \$3.50.

—Boys' and Girls' Shoe Store, Bullock's Fifth Floor.
